GUARANTEED CARBON FREE PLANTS

Eco-Friendly Plants, Making Our Country A Healthier Place

Warehouse Garden Centre is your trusted source for wholesale plant cultivation in the UK Based in the heart of Warrington, our mission is simple yet impactful: to grow premium plants for UK plant and garden centre retailers, reducing the need for international imports and contributing to a greener future.

At Warehouse Garden Centre, we're passionate about sustainability, and our primary goal is to help lower the UK's carbon footprint.

By cultivating locally, we not only provide retailers with exceptional plants but also play a vital role in reducing the environmental impact associated with long-distance imports.

Our commitment goes beyond mere carbon neutrality; we strive to remain carbon negative. Through eco-conscious practices, responsible sourcing, and energy-efficient

cultivation methods, we actively work to offset more carbon than we produce. When you choose us, you're choosing quality, sustainability, and a brighter future for our planet.

We also offer competitive pricing for our UK-grown plants due to our elimination of import costs, tariffs, and shipping expenses.

So join us on our journey toward a more environmentally friendly and self-sufficient gardening industry. We are always happy to answer your questions, so call us today for helpful, friendly advice.
